# Harol PATiO

Do you have a garden or terrace?  
With a Harol PATiO awning you can transform it into a cosy space, sheltered from sun and rain, and lit up and heated at night. You can choose from more than 10 models: from sleek and modern to warm and natural, made from aluminium or wood. All top quality, available in various colours and made to measure. In short, with a PATiO awning you can create a very distinct space. And who knows, it might even become your favourite space!

ALU

WOOD

WOODPLUS

STIL

INFINITY

## A success in all respects

You can choose from a standard wall-mounted structure, mounted between two walls, against the ceiling, on a frame or free-standing\*. You can even have this system mounted to your own existing structure. With taut fabric, it has a clean and geometrical look; wavy fabric makes it more traditional. Both the frames and the fabric are available in a variety of colours. In short: whatever your style, there is always a Harol PATiO that will match it.

\* on request

PATiO TECNIC

## TECNIC principle

### Flexible and simple

An innovative folding roof system that can be retracted in a flash. It is easy to install on an existing structure or on your own building structure and is the base for the Alu, Wood, Woodplus, Stil and Infinity models.

TECNIC	Projection	Integrated gutter	Enclosure with e.g. screens	Position of posts	Width
	up to 6 m	no	yes	straight	up to 13 m
	up to 8 m	no	yes	straight	up to 13 m
	up to 7 m	yes	yes	straight	up to 13 m
	up to 7 m	yes	no	oblique	up to 13 m
	up to 7 m	yes	yes	straight	up to 13 m

The Tecnic (without posts) has a projection of up to 8 m.

PATiO ALU

PATiO WOOD

PATiO WOODPLUS

PATiO STIL

PATiO INFINITY

### **PATiO ALU. Sleek and modern.**

A pergola structure made from aluminium and stainless steel with integrated folding-arm roof: to suit every style and personality.

### **PATiO WOOD. Authentic and strong.**

A PATiO Tecnic with a wooden frame: PATiO Wood combines modern techniques with the unique look of wood. Basic design in laminated Norwegian pine.

### **PATiO WOODPLUS. Modern comfort, natural effect.**

A wood effect, with the advantages of aluminium: behold the unique character of the PATiO Woodplus. Water is discharged through a unique system of aluminium structures between the wooden posts. Even the gutter is ingeniously incorporated into the structure. Modern comfort with a natural effect? Look no further.

### **PATiO STIL. Attractively trendy.**

A PATiO Tecnic with oblique, continuous posts for a distinctive look. Enjoy yourself to your heart's content under this open-structured PATiO awning. The sleek design features an integrated channel section and a drainpipe that runs along the posts.

### **PATiO INFINITY. Stylish simplicity.**

Similar to the PATiO Stil, but the basic design has straight, non-continuous posts with the channel section mounted at the top. Easy to install additional wind and rain shields to the sides.

PATiO ONE

# ONE principle

## Robust and minimalist

An ideal solution for a robust, sleek awning between two walls.  
 The PATiO One has one large guide profile which allows for a span of up to 8 m.

ONE		Projection	Integrated gutter	Enclosure with e.g. screens	Position of posts
		PATiO Evo	up to 7 m	yes	yes

The One [without posts] has a projection of up to 8 m.

**PATiO EVO. Robust and large.**

The same strong and sophisticated load bearing profiles [up to 7 m] as the PATiO One, but with posts and an integrated gutter.

## LEVEL principle

### Ingenious and durable

A robust aluminium structure with a new profile section and a sophisticated water drainage system. The PATiO Level offers an exceptional level of comfort and a wide choice of colours for the coating.

LEVEL	Projection	Integrated gutter	Enclosure with e.g. screens	Position of posts
PATiO Level	up to 6.5 m	yes	yes	straight

Note: the Level version is always supplied with posts.

**Keep up with the latest trends.**

Looking for a detached and sheltered space in your garden or terrace?

PATIO REVERSE

PATIO PHOENIX

## PATIO REVERSE

**Tight and firm.**

The PATIO reverse with horizontal roof construction has a self-supporting structure and is equipped with a wireless operation. This PATIO is also suitable to close with the side wind and sun awning SL 400 or screens.

## PATIO PHOENIX

**Nice and simple.**

The Phoenix has a sleek PATIO in V-shape stretched PVC canvas without slope which allows that rain will be drained back and forth on both sides.

REVERSE / PHOENIX	REVERSE / PHOENIX			
	Width	Gutter integrated	Closable with screens	Position of posts
PATIO Reverse	to 10 m	yes	yes	straight
PATIO Phoenix	to 10 m	now	now	straight

## Frames in the **colour of your choice**

The frames are painted as standard in ivory [RAL 1013] or white [RAL 9010]. You are free to choose **any other RAL colour\*** or any of the **Prestige textured coatings**.

\* With the exception of PATiO Level, where you have the choice of standard or Prestige colours, and PATiO Woodplus, where you can only choose from the Prestige colours.

PATiO STIL + STORELIGHT

## A motor-driven control system: **Safety Box Motor**

- > Power adjustable **ALTUS 50 RTS motor** for effortless control, irrespective of the size of the PATiO (4 m or 13 m).
- > Can be mounted **against a wall** or on an **intermediate profile**.
- > **No need for any reconstruction or demolition work**.
- > Motor housing made from **aluminium profiles**, mounting brackets from **stainless steel**.
- > **Quiet** motor.
- > Simple, **quick installation**.
- > Can be operated with the **Somfy remote control**.

Simple operation:  
just one touch.

PATiO ALU

Patented anti-drip system.

## Harol PATiO fabrics: resistant to weather and wind and even rain

Our fabrics are subjected to the strictest quality standards. They are severely tested for durability. All Harol PATiO models come as standard with Precontraint PVC 602 (light-proof and in white or ivory) or with Precontraint PVC 302 fabrics (translucent and available in 17 colours).

- > **100% waterproof.**
- > Wind resistant up to **90 km/h**, depending on the size of the PATiO.
- > **Self-extinguishing**, for greater fire safety.
- > **UV resistant.**
- > Treated for **micro-organisms**.
- > **Extensively tested** retract/extend cycles comparable to 15 years of use.
- > Taut fabrics with patented **anti-drip system**, so the rain is collected in a gutter and does not run along the fabric.
- > Optional **wavy** fabric suspension.

PATiO ALU + SC800

UMBRIS

## Even more protection with a PATiO screen

- > **Lateral and/or frontal** enclosure.
- > Suitable for **most PATiO models**.
- > **Wind resistant** and **windproof**.
- > Can be mounted both **frontally** and **laterally**.
- > Operated with an **RTS motor**.
- > **Quick** and **easy** assembly.
- > Model with **window inserts** or completely **transparent** fabric.
- > Dimensions: up to **3,000 mm width** and **3,000 mm height** [for transparent fabrics].
- > Alternative for the PATiO screen is the **SL400 lateral wind and sun screen**, with imprintable fabric.
